Hi Amanda –

US DOE West Valley Demonstration Project **does not have any OB/OD** interim status operation units. This facility does have other units operating under interim status (see attached Comprehensive Permitting and Detailed GPRA Baseline Reports). Also, please see the attached files for Lawrence Liverpool Lab Site 300 in California. There are a lot of unlinked events showing up in the Comprehensive Report which may be why the Permit, No is showing up on the Detailed GPRA Baseline Report. Per Mike Zabaneh, Region 9, there is a permit renewal for Site 300 that is scheduled for September 2016. DTCS is working on correcting their data updates. Let me know if you need anything else. Thanks

Thanks Nina – you can let Laura know that we're looking into it and will get back to her.

**Norma** – can you please look into these two facilities? Please feel free to use RCRAInfo and/or check with the Regional contacts.

Hi Amanda,

I received 2 emails from Laura Olah inquiring about DOE facilities. One is copied below asking about the operating status of WVDP, which is not on the original facility list we have. In addition, she has a draft RCRA permit (attached to this email) for CA2890020002 Lawrence Livermore in CA. However, this facility is not on the original list either and Laura wants to know the current status of the facility and whether the permit is approved.

Could you instruct me on how to find information about these 2 facilities and respond to her?

Thank you so much!

Nina

Hi Nina,

EPA Region 2 says that the West Valley Demonstration Project (WVDP) does not have any OB/OD units – WVDP was one of the DOE sites that you said was operating under interim status – 3 storage and 4 treatment. I think this the facility number is NYD980779540

Can you please double-check for me?

Thanks!

Laura

Good afternoon

Our records show that the West Valley Demonstration Project has no open burning/open detonation units.

Dear Andy,

I found your name on the EPA website as the point of contact.

I am looking for RCRA Part A and Part B permit applications for the open burning/open detonation miscellaneous units at West Valley Demonstration Project USDOE. Are these posted online or can you email them to me?

Also, are there any Air Permits, such as a Title V permit, for the facility that contains operating conditions for the OB/OD unite at West Valley?

Thank you!

Laura
